EDUCATION

- **RV Institute Of Technology and Management, Bangalore** 2023–Present
B.E in C.S.E CGPA: 9.033
- **D.P.S Bhilai** 2021
CBSE, Chhattisgarh Percentage: 93%
- **D.P.S Bhilai** 2019
CBSE, Chhattisgarh Percentage: 93%

EXPERIENCE AND PERSONAL PROJECTS

- **Text-based Screening for Parkinson's Disease** 2025
Developed an automated screening system to assess Parkinson's risk from patient symptom descriptions using state-of-the-art pretrained language models (LLMs). Built a Python pipeline leveraging transformer models on datasets such as PPMI and UCI, with functionalities for text preprocessing, feature extraction, and risk scoring. Enabled medical screening with robust classification and low resource overhead through NLP-based risk detection.
–Tools & Technologies Used: Python, Hugging Face Transformers, scikit-learn, Streamlit, PPMI/UCI/Kaggle datasets.
–Output: Clinically meaningful classification results and a deployable text screening module.
- **Interactive Stock Tracking Web Application** 2025
Developed a full-stack web app to track top 50 Indian stocks with real-time price updates, admin-user portals, and dynamic stock management functionality.
–Tools & Technologies Used: React, Node.js, Express, MongoDB, Vercel.
–Achieved seamless real-time stock updates and user role-based access control with a clean UI.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, C, C++, Java, JavaScript, HTML, CSS

Developer Tools: Git, VS Code, Blender, Vercel, Jupyter Notebook, Linux CLI

Frameworks: React, Node.js, Three.js, NumPy, Pandas

Cloud/Databases: MongoDB, MySQL

Soft Skills: Teaching, Research Writing, Teamwork, Public Speaking, Problem Solving, Workshop Facilitation

Coursework: Data Structures & Algorithms, Machine Learning, DBMS, OS, Computer Networks, Probability and Statistics

Areas of Interest: Machine Learning, Web Development, Data Structures and Algorithms, UI/UX Design

POSITIONS OF RESPONSIBILITY

- **Member Speakers Club** 3 years
- **Member DSA Club** 1 year

ACHIEVEMENTS

- **Published a Paper** Published a research paper in HBRP Publication on the topic: *Optimizing Soyabean Pro-03/2025*
duction: A Data Driven Machine Learning Framework.
- **Published a Paper** Published a research paper in HBRP Publication on the topic: *Unveiling India's Demographic11/2025*
Mosaic: An Exploratory Data Analysis of Indian Census Data.
